

BrainPOP at Home

Have a heart-POPping Valentine's Day! Discover, play, and learn with your family.

WATCH A MOVIE

Heart

Lub-dub, lub-dub, lub-dub... What makes your heart beat? What makes it speed up and slow down? Watch this movie to find out answers to these questions and much more!

WATCH MORE BRAINPOP MOVIES ABOUT THE HEART:

- [Circulatory System](#)
- [Blood Pressure](#)

*** SPARK A CONVERSATION**

- *What's the most surprising fact you learned about the heart?*
- *Why does your heart have two atria and two ventricles?*
- *What makes your heart beat fast? Why does this happen?*

PLAY A GAME

Guts and Bolts

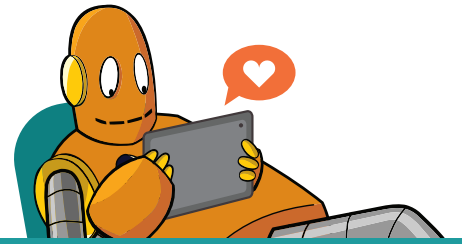

Build a cyborg by connecting organs, including the heart of course!

Build-a-Body: Circulatory System

Drag and drop organs to assemble a human circulatory system.

BrainPOP at Home

Have a heartPOPping Valentine's Day! Discover, play, and learn with your family.

MAKE A MOVIE

Make-a-Movie: Heart*

As a family, plan and produce a BrainPOP-style movie that explains how the heart differs from your other muscles. Start the movie with a letter then collaborate to design the scenes, write the script, and record voices.

**Make-a-Movie is available for individual student account holders only.*
