

Creative Coding Steps: Game

1. Click the **ADD** button on the right to choose and add a sprite to explain the rules of your game.
2. Drag a **SAY** block to the Code Editor and type the game rule. Connect a **WHEN FLAG CLICKED** block.

3. Add your first sprite for players to sort.
4. Drag a **WHEN SPRITE CLICKED** block. Connect a **SAY** block and type a response.
5. Drag a special effect block for visual feedback.
6. Add a second sprite to sort.
7. Code the sprite to respond with words and a sound effect.
8. Add more sprites and experiment with different effects.
